

## Type 1 Facility Closeout Report

## Section A. Facility Data

Facility No. 331C  
Facility Descriptor: Cargo Storage, B331  
Project: RISS  
Date of Demolition: 3/1/2005  
Additional Information:  
(Must include information on environmental releases and conditions of site at turnover to Environmental Restoration)

## Section B. Final Characterization Data

Reconnaissance Level Characterization Report Type 1 Concurrence-Steven Gunderson to Richard DiSalvo,  
(concurrence received) May 29, 2003  
In-process Characterization NA  
Pre-Demolition Survey Report (approval received) NA  
Post-Demolition Survey Report (as necessary) NA

## Section C. Waste Data (complete categories as appropriate)

Sanitary Disposal

Disposal Site: BFI Foothills  
Waste Volume (yd<sup>3</sup>): 2  
Waste Weight (tons): 1  
Additional Information: Demolition debris from "roof" covering of two cargos.

Hazardous Disposal

Disposal Site: NA  
Waste Volume (yd<sup>3</sup>):  
Additional Information:

TSCA Waste Disposal

Disposal Site: NA  
Waste Volume (yd<sup>3</sup>):  
Additional Information:

Asbestos Waste Disposal

Disposal Site: NA  
Waste Volume (yd<sup>3</sup>):  
Additional Information:

Low-Level Waste Disposal

Disposal Site: NA  
Waste Volume (yd<sup>3</sup>):  
Additional Information:

Low-Level Mixed Waste Disposal

Disposal Site: NA  
Waste Volume (yd<sup>3</sup>):  
Additional Information:

Recycled Material

Recycle Facility: NA  
Waste Volume (yd<sup>3</sup>):  
Additional Information:

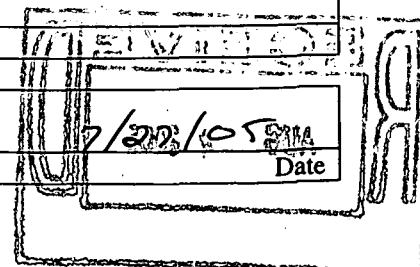

Property Disposition

Receiver Locations (major items only):  
Additional Information:

## Section D. Approvals

Kaiser-Hill Project Manager

Name/Signature

## Instructions for Completion of Type 1 Facility Closeout Report

331C was an approximately 800 square foot structure placed into service in 1975. The structure was constructed of two cargo containers placed about 20 feet apart and a roof connecting the two containers. The cargos and the area between them were used to store grounds-keeping equipment and supplies such as lawn tractors, weed-whackers, hand tools, and other supplies and equipment.

Only the roof of the structure was demolished and sent off-site for disposal as sanitary waste. The cargo containers were sent to PU&D.

331C had drop-down electrical service, which was removed prior to removal of the cargos.
